

The importance of a good education

In recent years, more and more freedom has emerged in Reiki-training courses, which shows that there are increasing differences in quality. There is also great diversity in background and knowledge within the members of our association, the [Reiki Vereniging CIRKEL](#).

To make it easier for prospective students to find a Reiki Master who is well trained, the association has started working with a register of Recommended Trainers.

These Trainers have signed the Declaration of Quality, guaranteeing their students that the training meets these requirements. This is in the interest of the association, but also of all members, future clients and of Reiki in general!

The heart behind the Meditation Circles

“My vision in joining the ERG was from the outset to create a community of Reiki practitioners and friends who would spread the benefits of Reiki together and across borders. I am so pleased this project has now reached maturity!”

You are all invited to the online monthly Reiki Meditation Circle, a Community building project of the European Reiki Group

We invite you to open our hearts to a new experience, to get to know each other and to practice Reiki together during one hour a month.

The Reiki Meditation Circles will be held in different European languages, in turn by the countries members of ERG so we will experience how Reiki can connect us beyond words. We will sit together in the Reiki Circle and feel the connection with Reiki even if we don't understand the words.

Next ERG Meditation Circle:

25 June at 7pm UK or GMT/ 8 pm CET/ 9 PM EET

The dates and zoom links will be announced on the [agenda](#).
